FEATURED PROJECTS

Central Command & Operations Platform – EL DJAMIYA

Enterprise Platform – Fullstack (Next.js, MySQL, TailwindCSS)

Large-scale enterprise platform for Africa's largest bus company managing drivers, buses, check-ins/check-outs, regions, supervisors, controllers, devices, roles, trips, and advanced analytics for operational efficiency and traceability.

IATF Bus Attendance Automation Platform

Fullstack – Next.js + TypeScript + Prisma

Innovative platform developed in under 24 hours to automate bus attendance during IATF event in Algeria. Features auto-account creation, check-in validation, supervisor approvals, and admin reporting.

Official Transport Platform – IATF Algeria

Frontend + Backend – Next.js

Multilingual showcase website for official transport service with contact forms, online bus requests, animated UI/UX, and admin dashboard for message and reservation management.

Advanced Multilingual Blog CMS

CMS Development – Next.js + Prisma + TypeScript

Complete blog CMS with multilingual content editing, role-based access management, SEO optimization, and drag-and-drop content builder.

E-commerce Platforms (WordPress/WooCommerce)

Multiple implementations including perfume stores, women's clothing, pharmacy platforms with SEO optimization, payment integration, and Facebook Pixel tracking.

QR Code Scanning App for Controllers

Flutter Mobile Application

Flutter application for bus controllers to scan QR codes with a simple and clean interface.

Supervisor Mobile App

Flutter Mobile Application

Flutter app for supervisors to manage their stations, controllers, buses, and drivers efficiently using a modern and intuitive UI.

Cash-on-Delivery Optimization Plugin

Custom WordPress Plugin

Custom WooCommerce plugin that removes the classic cart and checkout steps to simplify cash-on-delivery purchases.

LANGUAGES

- Arabic (Native)
- French (Fluent)
- English (Fluent)
